

Health and Safety Policy

We at Azure Power, strongly believe that safeguarding Health & Safety of all our stakeholders (employees, customers, workers, contractors, suppliers & communities) is of utmost importance. This takes precedence in all our business decisions. Each employee is responsible and accountable for safety and the line managers play stewardship role in achieving Health & Safety objective of the organisation. Azure is committed to enhance sustainability of its operations by prioritising and adhering to following Health & Safety principles:

- Inculcate Health & Safety culture as way of life through training and capacity building.
- Empower all stakeholders to practice “Stop Work” in case of identified Health & Safety risk.
- Reward and recognise positive Health & Safety behaviour.
- Incorporate best possible standards of Health & Safety in our line of business through continuous improvement.

Azure assures zero tolerance to non-compliance of any statutory Health & Safety requirements / regulations.

This policy is applicable to all subsidiaries and group companies of Azure power. Management commits availability of adequate time and resource to fully implement this policy.
